13005 Hamlin Court
Alsip, IL 60658

Incident Verification Letter

Re: Incident #960582

Alsip of Cook County

Dear Mr. Becka:

On April 11, 1996 this office received information that you or an organization that you represent were involved in an environmental incident which occurred at or near 13005 Hamlin Court in Alsip on or before April 11, 1996. Our records currently indicate the involvement of 80-100 gallons of freon.

Your assistance is requested in confirming, correcting and completing the public records regarding the circumstances of this incident. Enclosed is a copy of the Illinois Emergency Management Agency's report as we received it. Please make additions and any corrections as needed and return it within ten (10) working days from receipt of this letter to the Agency. Include with your submission a description of the emergency actions taken at the time of the release and what additional remediation has taken place or is planned. Make your reply to:

Illinois Environmental Protection Agency
Emergency Response Unit, Mail Drop #29
P.O. Box 19276
2200 Churchill Road
Springfield, IL 62794-9276

29 APR 96 11:37

Following your completion of investigation and remediation activities, the Agency requests a written summary of the incident, the cause(s) of the release, remediation performed, and the known or estimated amount of material recovered for reuse, treatment, or disposal. Include copies of any manifests used to move and dispose of any waste and copies of analytical data from soil, groundwater and/or surface water samples verifying adequate removal of the contamination if applicable. If you have not completed the remediation by the end of forty-five (45) days from the date of this letter, please notify the Agency of the status of the remediation and projected completion date by mail or phone (217) 782-3637.

Be advised that should you desire a clean letter from the Agency regarding your remediation efforts or if present conditions indicate that a long-term remediation may be appropriate, you may wish to join the "Pre-Notice Site Clean-up Program" administered by the Agency's Bureau of Land, Remedial Project Management Section. Information concerning this program is available upon request from:

Bob O'Hara
Illinois Environmental Protection Agency
Bureau of Land, Remedial Project Section
2200 Churchill, P.O. Box 19276
Springfield, IL 62794-9276
(217) 782-6760

Please refer to the incident number in all correspondence on this incident. Should you have any questions concerning the incident verification please contact the undersigned at 217/782-3637.

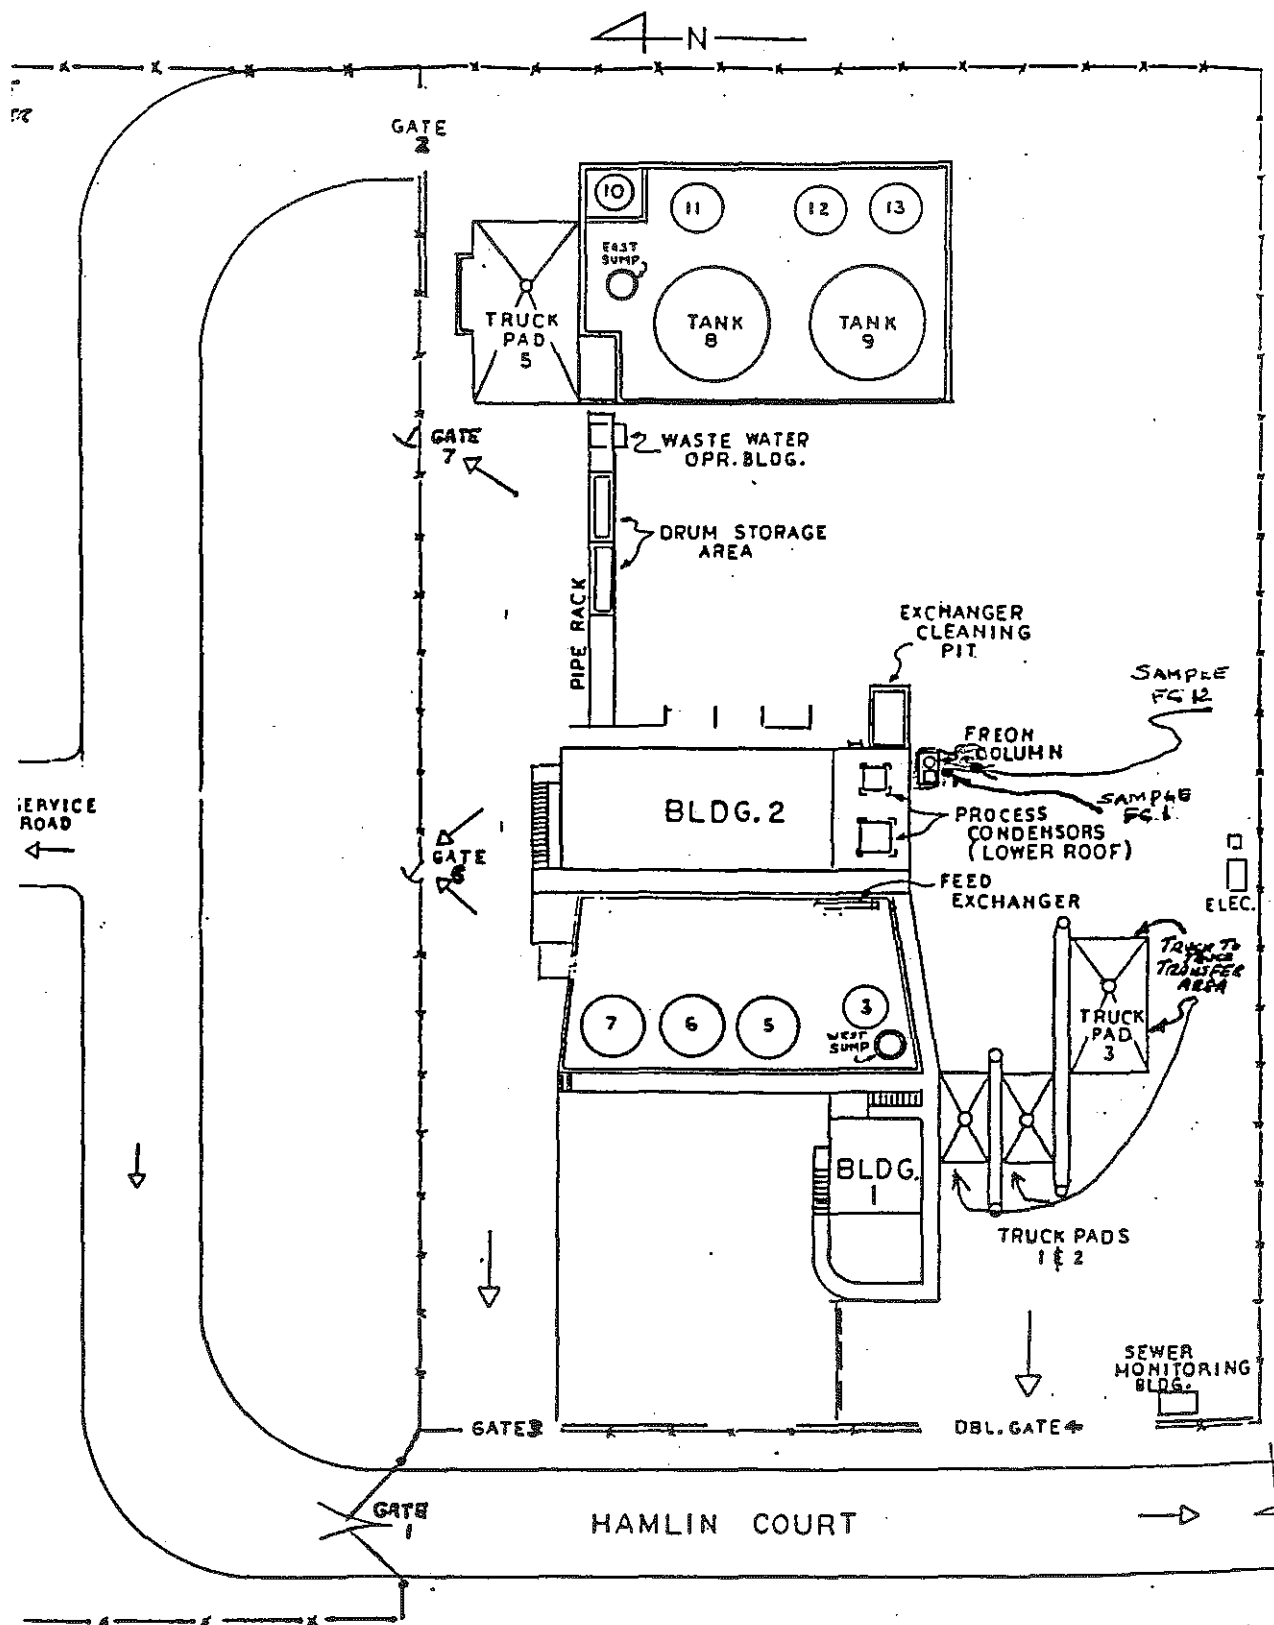

Sincerely,

Charles W. Brutlag
Incident Coordinator
Emergency Response Unit
Office of Chemical Safety

c/o Cook County Sheriff EMA
1401 Maybrook
Maywood, Illinois 60153-2418

Dear Sir:

This letter is to confirm my telephone conversation on April 11, 1996 with Mr. Paul Larson of your department concerning a release at our facility. Advanced Environmental Technical Services (A.E.T.S.) is going through a partail closure of certain equipment. On April 11, 1996 at approximately 8:45 AM. We were working on the removal of our freon column. The valve at the bottom of the column was open and probed for a blockage. Some free liquid and sludge was drained. The valve was then removed. Apparently there was a blockage in the vertical section of the pipe. After some time this blockage came free and caused the leak of approximately eighty (80) to one hundred (100) gallons of a mixture of 113 freon (1,1,2-Trichloro - 1,2,2 - Trifluoro methane), #2 oil and water. Freon 113 is not specifically listed in the RQ Table, but is covered under the F001 - Chlorinated Fluorocarbon RQ of 5000 lbs. The effected area (approximately 10' x 15') was immediately diked using oil dri and the liquid was contained. Remediation was started using absorbent and soil removal. All contaminated soil was placed in 55 gallon containers to be shipped off site for disposal. At 9:15 AM on April 11, 1996 I notified the State Emergency Response Commission at 217-782-7860. I spoke with Mr. Hugo and answered all the requested questions, he gave me the following report number 960582. I also notified AETS Corporate Office in Flanders, New Jersey and spoke with Mr. Rick Daniels and Mr. Thomas Baker at 201-691-3937. As a result of the incident we will use a flexible probe to search for blockage in the remaining pipe lines.

Should you need further information, please contact me at 708-388-1732.

Sincerely,

Arthur J. Becka
Facility Manager

15. Special Handling Instructions and Additional Information

6. GENERATOR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by proper shipping name and are classified, packed, marked, and labeled, and are in all respects in proper condition for transport by highway according to applicable international and national government regulations.

If I am a large quantity generator, I certify that I have a program in place to reduce the volume and toxicity of waste generated to the degree I have determined to be economically practicable and that I have selected the practicable method of treatment, storage, or disposal currently available to me which minimizes the present and future threat to human health and the environment; OR, if I am a small quantity generator, I have made a good faith effort to minimize my waste generation and select the best waste management method that is available to me and that I can afford.
